

Neuroscience/Cardiology CME | April 26-27, 2024

Dear Colleague,

St. Dominic's Neuroscience Center and the Mississippi Heart & Vascular Institute along with co-course directors Ruth Fredericks, MD, and Harper Stone, MD, have earned the reputation of presenting high-quality CME activities with excellent speakers, relevant topics, and motivated attendees. The NeuroCardio CME brings together healthcare professionals from throughout Mississippi and neighboring states to hear from content experts on topics such as new dementia treatments, multiple sclerosis, structural heart disease, stroke treatment and other medical issues related to cardiovascular and neurological diseases. Course content focuses on both treatment and prevention. This year St. Dominic's is partnering with the Mississippi State Medical Association (MSMA) to provide the CME credit. MSMA also will handle the online registration process as well as vendor payments. For more information, click on [www.stdom.com/CME](http://www.stdom.com/CME)

Our target audience will be neurologists, cardiologists, neuro-interventional radiologists, primary care physicians, emergency medicine physicians, acute care nurse practitioners, as well as allied health professionals.

Many of the attendees practice in rural communities where there is little or no opportunity for advanced education. Attending the NeuroCardio CME gives them a chance to network with fellow practitioners and return to their clinics armed with practical information that they can apply daily. We hope that you will partner with us in providing a quality education experience for our attendees.

*The following are opportunities to support the conference:*

Primary Sponsor	\$10,000 --Primary Sponsorship + Prime Location of Vendor booth(s)
Platinum	\$7,500 - Sponsorship + Vendor booth+ key location + Reception Sponsor
Gold Sponsor	\$5,000- Vendor Booth+ Breakfast or Lunch Sponsor
Silver Sponsor	\$2,500--Vendor Booth + Break Sponsor
Bronze Sponsor	\$1,500 --Vendor booth only

The booth includes a 6" table and two chairs. Vendors are permitted to attend the sessions but are not allowed to participate in any way.

The continued support of organizations such as yours is vital to our goal of providing evidence-based educational information in the pursuit of enhanced care quality. We thank you for your support. If you have any questions, please call Charlotte Vayda at 601-862-8803 or email [charlotte.vayda@fmoilhs.org](mailto:charlotte.vayda@fmoilhs.org)
